ANTARCTICA CRUISE & LAND TOUR FEBRUARY 13-25, 2025

Our much-awaited cruise to the White Continent - Antarctica is now scheduled for Feb 13-25, 2025. Please mark your calendar and book your space now as bookings will only be accepted only on first come first served basis.

Antarctica- the Earth's fifth largest continent is covered in ice in the South Pole. Antarctica contains 90 percent of all of the ice on the planet in an area just under one and a half times the size of the United States.

This is our classic 10-day voyage to the Great White Continent. Experience the incredible wildlife, stunning mountain scenery and gigantic icebergs in 10 action-packed days.

Onboard our brand new, modern, strong, ice-classed expedition vessels, we are sure to get close to the dramatic coastlines. Zodiac cruising and shore landings are an important and considerable part of the planned itinerary, enabling all expedition guests to set foot several times on the Antarctic continent, as well as the many surrounding sub-Antarctic islands.

Departing Ushuaia in Argentina, we cross the mighty Drake Passage en-route for the South Shetland Islands, making Zodiac landings at penguin rookeries, research stations and fascinating lookouts along the way. Continuing southward, deep into the inlets of Antarctica, we pass the famous Gerlache Strait, where 3000-ft ice cliffs rise straight out of the still water. On no other journey can you experience so much pristine nature and varied wildlife in so few days!

Please join today with your family and friends by filling in the Booking Form and mailing Pollina Tours (Tel: 516 358 1301).

Looking forward to seeing you on board this Great Voyage!
Life is Beautiful. Let's enjoy it with family & friends!!

Feb 17th & 18th, 2025: At Sea-Cross Drake Passage

Sailing onward, we cross the famed Drake Passage - a body of water that marks the intersection of the cold Antarctic with the warmer Atlantic and Pacific Oceans. Drake Passage is known for rollicking conditions and strong westerly winds, called the Roaring Fifties. While this passage may be challenging, you can rest confidently aboard our expedition vessel, which is purpose-built with stabilizers, powerful engines and a highly qualified crew. The most spirited sailors consider Drake Passage a lifetime achievement, and you will complete the crossing twice!

Feb 19th & 20th, 2025: South Shetland Islands

Over the next two days, we will begin the exciting Antarctic experience we only dreamed of. During these days we will explore the sub-Antarctic islands of the South Shetland chain and be marveled by the captivating landscapes we will encounter along the way.

Weather permitting, our projected landfalls include: King George Island; Deception Island, an extinct volcano with waters warm enough for a polar swim; and Half Moon Island with nesting Wilson's storm petrels and chinstrap penguins. The itinerary and activities over the next few days depend on weather and ice conditions. The route and shore landings will be determined by the captain and expedition leader and communicated to guests through regularly scheduled briefings.

Feb 21st & 22nd, 2025: Antarctic Peninsula

As the white shimmer of Antarctica looms on our horizon, the presence of wildlife multiplies by tens of thousands with many species of lively penguins, inquisitive seals, nesting birds and the spray of marine mammals.

Wildlife abounds along our projected route along the Antarctic Peninsula: leopard, fur and Weddell seals of Cuverville Island; humpback whales of Gerlache Strait; Paradise Bay; the dramatic Lemaire Channel's orcas and much more.

The itinerary and activities over the next few days depend on weather and ice conditions. The route and shore landings will be determined by the captain and expedition leader and communicated to guests through regularly scheduled briefings.

Please note that all the outings and landings rely on weather, sea and ice conditions being favorable both for the ship to access the areas, as for the zodiacs and kayaks to maneuver under adequate conditions, ensuring the safety of all our passengers and staff.

For this reason, during moments of harsh weather and throughout the entire trip, our ships offer excellent public areas such as wellness/sauna, restaurant, bar and a library for our passengers to spend their spare time. Our ships are staffed by experts in the field who will also share great lectures along the way, ranging from exploration history to biology, geology, ice and wildlife.

ADVENTURE OPTIONS

KAYAKING:

Glide through the waters and take in the royal grace of the icebergs, see the varied birds and seals, and maybe even the whales in their natural habitat under the supervision of experienced kayak guides, who will ensure your safety during each outing.

Exercise your body while engaging your mind and heart in an unforgettable outing, safely guided by Kayak masters throughout the journey. Kayaking activities are available on both Arctic and Antarctic voyages.

Although kayaking opportunities are possible in most locations during each excursion in the Antarctic region, weather, sea and ice conditions will dictate the when and where to ensure your safety and improve your experience.

In order to sign up for this activity you need to have previous kayaking experience and attend a mandatory safety briefing by the Kayak Master. The cost is \$250/person per outing and it can only be booked onboard.

PHOTOGRAPHY:

The vessel always has a dedicated expedition photographer onboard to document the voyage and share their passion for photography through lectures and during landings and zodiac cruises.

POLLINA TOURS AND TRAVEL, INC.

ANTARCTICA CRUISE (February 13-25, 2025)

The Polar Regions are filled with mesmerizing landscapes and amazing wildlife; and the expedition photographer is available to help elevate your photographic capabilities to beautifully capture the magical moments of your voyage.

ZODIAC ROBUST BOATS:

Essential for expedition cruises, Zodiacs are robust boats that can go up on a beach, a rocky outcrop, a river bank or even an ice floe push through bergy bits of ice floating in the water. This is definitely one on the assets that distinguishes this way of exploring from more conventional cruises. Zodiacs enable our guests to explore the scenery from a very different perspective:

They allow us to safely do landings in wild places with no infrastructure, often before or after a landing or as the main excursion. They allow us to take our guests to interesting places just around the corner or around an iceberg, which is a great way to get near wildlife or to watch the ice formations up close, take unimaginable photographs and feel a closer connection to the nature in the area. Most of the zodiac

operations are planned, but they can also be used spontaneously if we discover some unique sightings on our way.

If you can negotiate normal stairs, you can also get in and out of a Zodiac. In the gangway we have strong seamen that will give you a firm helping hand. On shore you will also get help when needed. It's important to keep both hands free, so you can accept the provided support. Sitting on the boat, you just need to hold on to the rope and enjoy the fresh Polar air and the scenery.
